

Vision Services Referral Checklist

- Current eye report sent to the teacher of the visually impaired (TVI)
- Eye report reviewed by TVI & recommendations given whether to proceed with referral based on medical findings & alignment with Rule 51 verification guidelines for visual impairment
 - If medical findings are in alignment with verification guidelines, proceed to vision referral form
 - If medical findings are not in alignment with verification guidelines, referral process stops
- Vision referral form completed
- Release of information form listing eye doctor completed
- Current MDT/IEP sent & TVI added to SRS team (for current special education students)
- SRS consent for evaluation listing functional vision assessment completed & signed by parent
- Parent interview form(s) completed
- Classroom teacher interview form(s) completed by every academic teacher serving student
- Vision Services Referral Checklist completed
- Referral packet submitted to TVI

The TVI will complete observations of student and functional vision assessment activities to determine level of visual functioning and access to educational or developmental materials.
