

Attention Early Childhood Educators & Afterschool Providers!

Would you like more resources, ideas, and inspiration to use nature as your classroom? Then join us for this FREE workshop where we will focus on engaging children in nature through discoveries and science!

Growing Up WILD

Exploring Nature with Young Children

Growing Up WILD...

- is a high-quality, easy-to-use guide for all Educators, after school program leaders, & in-home daycare providers who work with children 3 through 7 years of age.
- Involves social, emotional, physical & cognitive domains to help foster learning in all areas.

Participants will receive...

Growing Up WILD - an educational activity guide with 21 lesson plans that build on children's sense of wonder about nature and invites them to explore the world.

To Register

Send your name, email, school/organization, grades/ages resources will be used for to...

Jamie.bachmann@nebraska.gov
