

L.E.E.D.

Legacy in Environmental Education Discovery Workshop

Join Nebraska Project WILD & the Nebraska Natural Legacy Project for a FREE two day in-depth educator workshop.

2017 will highlight the Indian Cave/Rulo Bluffs Biologically Unique Landscape. You are invited to investigate the role of prescribed fire in oak woodland management and engage with natural resource professionals who will share their knowledge and expertise of the unique flora and fauna in this area of Nebraska.

Why attend?

Each participant will receive a wealth of knowledge to use when incorporating local ecology into their curriculum. Plus, participants will receive numerous educational resources including field guides and activities for the Indian Cave ecology.

Who should attend?

This workshop is specifically designed for middle and high school formal classroom educators. Teachers of all subjects will find this workshop useful!

Cost to attend?

This two-day intensive workshop is **FREE** and includes all meals and lodging.

Ready to register?

Please email monica.macoubrie@nebraska.gov with your name, email, phone number, address, and school/affiliation.

June 26 & 27, 2017
(must attend both days)

Indian Cave State Park
