

The revisions are completed and *School Age Connections* is back online!

The *School Age Connections* training consists of three modules:

1. Understanding the Development of the School Age Child
2. Successful Programming for School Age Children
3. Guidance for Working with School Age Children

Since the revision is considerably different from the original, anyone who previously completed *School Age Connections* may repeat the modules and receive in-service clock hours.

A module must be completed within 30 days. Participants will receive a certificate upon completion of a module. Each module equals five (5) clock hours of in-service training. There is a \$10.00 fee per module.

School Age Connections is sponsored by the Nebraska Department of Education Office of Early Childhood. More information and registration is available at <https://www.education.ne.gov/OEC/school-age-connections.html>
